What is the future of literacy education?

We’re creating it.

#FPLiteracy
Bring the literacy expertise of Irene C. Fountas and Gay Su Pinnell to all students in your classroom—and open the doors to a world of opportunity beyond.

Lift students’ learning beyond the walls of the classroom with texts and a blueprint for teaching that create authentic experiences in reading, thinking, talking, writing, and reflecting to realize what it truly means to live a literate life.
Within the social world of classrooms, students learn what it means to be a global citizen. Through books, learning extends beyond the classroom walls. They learn how to collaborate, how to learn, how to solve problems.

—IRENE C. FOUNTAS AND GAY SU PINNELL

Envision the ideal design for literacy instruction in your school. What are your values and vision for the literacy lives of the students in your classroom? What student resources are in your classroom? What teaching tools and professional learning opportunities do you need for your own growth?

Turning a literacy vision into action requires the process of design—a plan for a system that works in a coherent way, where every component fits together in a streamlined whole to reflect a transformative vision of literacy education.

Building upon the transformational impact of earlier Fountas & Pinnell Literacy™ offerings including:
